

Sam (Developer-1)

Harish (Developer-2)

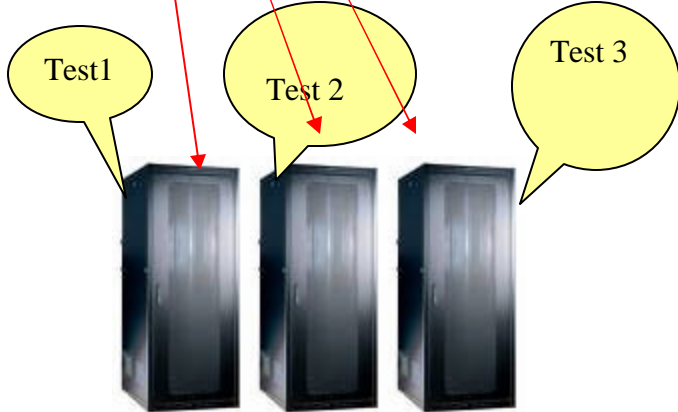

Jessica (Developer-3)

All 3 developers finish writing their code (program) and compile in a server (which is done by the Configuration Management Team), which is now called a **Build**.

SERVER

Now, the Build is DEPLOYED in different Test Environments as a Release

Different Test Environments

Tester 1 David Tester 2 Muna Tester 3 Jass

These Testers are now Testing application in different test environments
